Before

Originally our website was coded from scratch, I did maintenance and changes etc but we soon realized our site was very out-dated so we opted in and bought a Wordpress template from Envato which allowed me to create the current website from concept to design to development.

After

Expo's, Charitiy Events and Road Shows

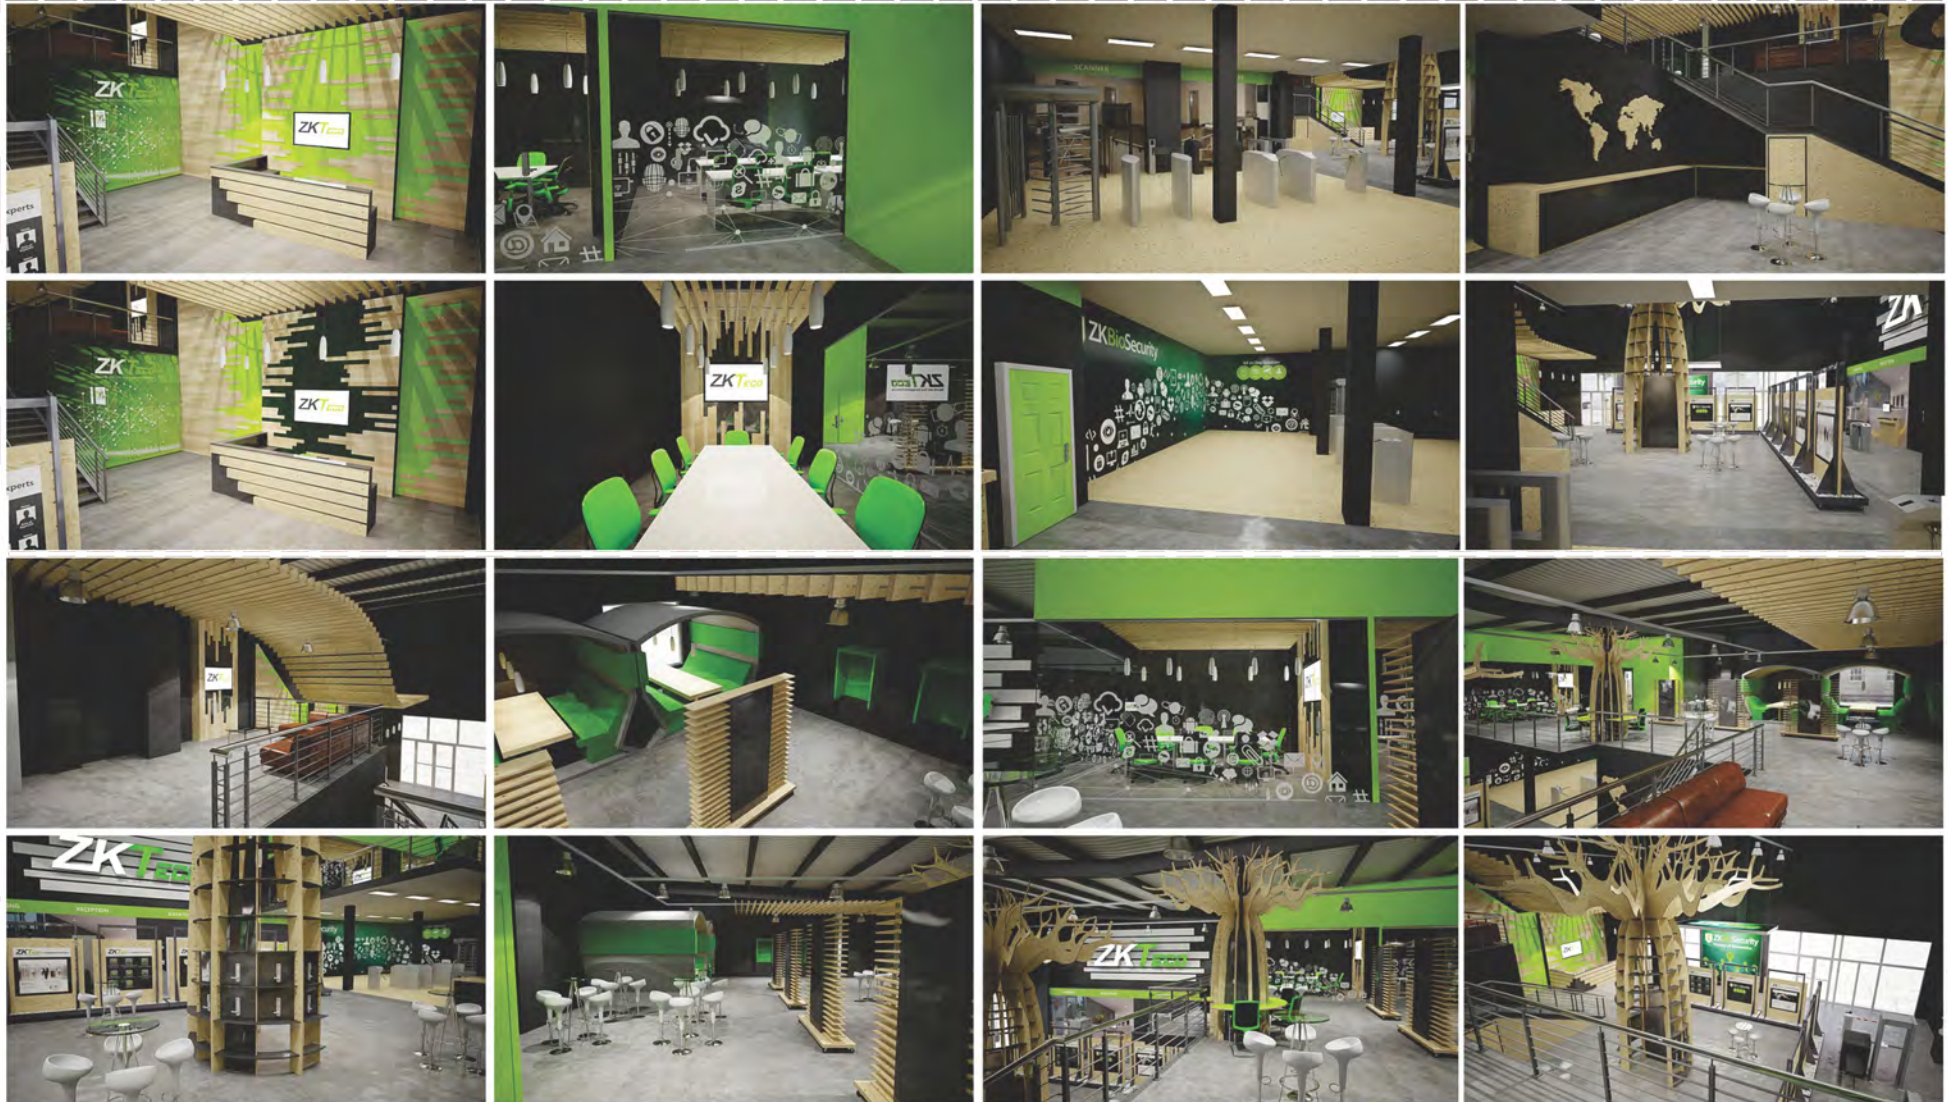

Exhibitions

I had the amazing opportunities to host, attend and participate in many events from Expo's to Ghala events. I am also very proud to claim the award for best stand of the year at Securex 2017 and 2018 from stand design to marketing, I tackled every aspect of it.

Permanent Exhibition

Exhibitions

We had to expand our reach and give customers the experience we had to provide with our products so hence we created the Experience Centre in Centurion, this was a group effort but I was in charge of design and layout where with a mix and match of thoughts and ideas we finally made our dreams come true.

THANK YOU

Please bear in mind I've been working at ZKTeco since 2016
and my workflow didn't allow me much time for freelance work.

Please contact me should you want more or other examples of work.
